

# 62nd Annual Meeting of the San Francisco Neurological Society

February 26 - 28, 2010 - The Lodge at Sonoma Resort & Spa - Sonoma, CA

## Invitation to Residents & Fellows Henry Newman, Edwin Boldrey and Kaiser Awards

To: All Residents and Fellows, Neurologic Sciences

For more detailed information and electronic submission, please visit:

From: SF Neurological Society

[www.sfneurological.org](http://www.sfneurological.org)

Submission Deadline: **January 19, 2010**

All residents and fellows in the neurosciences are invited to submit their papers for consideration for the San Francisco Neurological Society's annual Henry Newman Award (sponsored by *Stanford*), Edwin Boldrey Award (sponsored by *UCSF*) and *Kaiser* Award. The Henry Newman award is presented each year to the author of the best paper dealing with clinical neurology. The Edwin Boldrey award is intended to recognize a research project in neuroscience. The Kaiser Award is given to the next highest scoring paper, and can be either for clinical neurology or neuroscience. Each award recipient will present his/her paper on Sunday February 28, 2010 at the Society's Annual Meeting, which will be held at The Lodge at Sonoma Renaissance Resort and Spa in Sonoma, CA.

The honorarium award is \$500.00 each for the Boldrey and Newman Awards and \$250 for the Kaiser Award. In addition, the Newman and Boldrey Award winners will receive one night's complimentary lodging at the Lodge at Sonoma Renaissance Resort & Spa Saturday night. All winners will be invited to the Society's Annual Dinner and will receive a framed certificate award. Please e-mail your original research paper to Amanda Pacia at [apacia@sfneurological.org](mailto:apacia@sfneurological.org) by **January 19, 2010** for consideration.

**This year we will again invite all residents and fellows in the neurosciences to attend the Annual Meeting at for a greatly discounted registration fee.**

### Winners for the 61st Annual Meeting of the SF Neurological Society in Monterey:

From left to right: 2009 Resident Award Winners

HENRY NEWMAN AWARD—Jeffrey M. Gelfand, MD

KAISER AWARD—Isaac Yang, MD

EDWIN BOLDREY AWARD—Daniel C. Liu, MD, PhD

### EDWIN B. BOLDREY, MD— In 1940, Dr. Boldrey joined the *Department of Neurological Surgery at UCSF*,

where he served on the faculty for 48 years and as Chairman from 1951 to 1956. Dr. Boldrey was a pioneer in the therapeutic use of radiation for cerebral arteriovenous malformations and brain tumors. Among his many other contributions, to improve surgery for cervical intervertebral disc disease he developed an anterior cervical approach using discectomy without fusion, and was the first to remove a compressive lesion without requiring a bone graft.

The Edwin B. Boldrey Lectureship at *UCSF*, established in 1983, reflects the maxim he adopted from Michaelangelo, and lived by- "Ancora imparo, I am still learning". The Edwin Boldrey Award for Research In The Neurosciences was established by the *San Francisco Neurological Society* in honor of this great mentor and physician.

**HENRY NEWMAN, MD**—Henry Wise Newman, M.D., was one of *Stanford School of Medicine's* first neurologists. He descended from a Fresno family of vintners, rose to full Commander in the U. S. Navy, and continued as a consultant once a week to the Oak Knoll Naval Hospital. A compact man with a wry sense of humor, he was a shrewd diagnostician and compassionate clinician.

He had many interests besides neurology, including sailing and restoring antique cars (his death occurred from a ruptured aortic aneurysm, while pushing one of these cars). He left an indelible impression on those who worked with him, and he influenced many careers. His former Stanford colleague, Wm. Hofmann, M.D., remembers him as "a pleasant mixture of Robert Benchley and W. C. Fields, and the likes of him are today nowhere to be found".
